

I'M BUILDING A CABIN LIKE THIS

This method of construction:

- is affordable
- uses local materials
- doesn't require specialized skills
- is quick to build with a small group

THIS IS BENTWOOD CONSTRUCTION

- a budget-friendly way to build a shed, cabin or house. Tall, skinny softwood trees are bent over a form and bolted together in pairs to create the trusses that form its boat-like shape.

Curious to learn more about this construction method?

- Watch & share on socials. @wonderandwilder on IG, FB, TT, and YT.
- Sign up to my mailing list for updates on my blog.
- **Get hands-on experience:** I'll be having work parties in the spring so you can try bending trees yourself.
